Likely to close

from signals, not opinions

1. **Hyderabad Kitchen Co, 2 more kitchens**
   Already pays for 3 · asked for the quote · owner on the app daily
2. **Paradise Lane Dhaba**
   Quote opened twice · check found 4 things to fix · 2 min from a plan customer
3. **Green Leaf Tiffins, plan**
   First job rated 5 · signed off same day · asked about monthly price

Signals: the owner opened the quote, used the app, rated a job, or runs more than one kitchen. Quietly recomputed each night.

A BDE logs a lead in 20 seconds from the field: a photo of the shop board fills the name and address, the phone comes from the call. Every follow-up date, this list and the "likely to close" order come from the lead's stage and the owner's actions, not from anyone planning the day.
