AI usage

What the AI helpers cost, by helper, by screen and by restaurant. Read from the request log on the server; the key and the limits live there, not in the app.

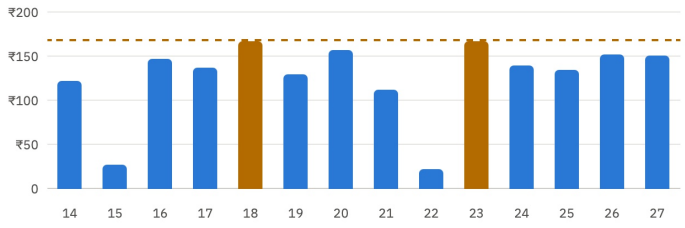

Sample data · November 2026, to Thursday 27 · 1 US$ = ₹84

November | Last 7 days | Today | Export the log

Spent this month	Credit left on the key	Today	Per paying kitchen	Refused by limits
₹4,120	US$49.75	₹151	₹196	41
US$49.05 · 17,245 requests · ₹0.24 each	of US$100 · lasts about 1 more month at this rate	89% of the ₹168 daily limit	a month, average · 3% of a ₹6,000 plan	requests this month · 3 outlets hit their daily cap

Spend per day, last 14 days

The dashed line is the daily limit set on the server (US$2 ≈ ₹168). A day that touches it means some requests were refused and the person saw "try again tomorrow".

Hit the daily limit (18 Nov, 23 Nov) Sundays are near zero: no checklists, no photos

Busiest hour: 7 to 8 am, opening checklists

Switches and limits

These live on the server. Changing one takes effect on the next request; nothing to reinstall.

All AI helpers	On
Daily limit, everything	US$2.00 · ₹168
Daily limit, per outlet	US$0.25 · ₹21
Monthly cap on the key	US$60 set in Anthropic's console
Model in use	Haiku 5.5 cheapest; images OK
Alert me when	a day passes 80% of the limit, or credit falls under US$20

Tests use a pretend AI and cost nothing; real calls are only the ones in this log.

By helper, this month

Each helper has its own switch. Cost per use is what Anthropic charged, converted at the month's rate; the share bar is its part of the ₹4,120.

Helper	Where it runs	Requests	Per use	Cost	Share	Status	Switch
Camera nudge "looks blurred, retake?"	App · daily checklists	10,900	₹0.18	₹1,962		48% of spend · review	On
Why this score? three plain sentences	App · Owner's Home	920	₹0.85	₹782		Fine	On
Daily digest which outlets need attention	Console · Monitoring	567	₹1.10	₹624		Fine · once a day per outlet	On
Read a document licence photo into the form	App · Licences	430	₹0.95	₹409		Fine · 11 licences a day	On
Translate issues, checklist items, SOPs, labels	App and console · Issues, Checklists	4,400	₹0.06	₹270		Fine	On
Inspection write-up "Draft with AI"	App · Supervisor's inspection	28	₹2.60	₹73		Fine · dearest per use, rarest	On
Total		**17,245**	₹0.24	**₹4,120**		App ₹3,226 (78%) · Console ₹894 (22%)	

The camera nudge is half the bill because it runs on every proof photo. Two cheap fixes: run it only on the first photo of each task, or only when the phone's own blur check is unsure. Either would roughly halve the month.

By restaurant, this month

What each kitchen's use of the helpers costs ECCS, against what the kitchen pays. The per-outlet daily cap is ₹21.

All 21 outlets

Outlet	Plan	Requests	AI cost	Of what they pay	Mostly	Against the daily cap
Spice Route Gachibowli	Essential ₹6,000	2,140	₹402	6.7%	Camera nudge: chef retakes most photos	Hit the cap 3 days
Hyderabad Kitchen Co 3 outlets · Gachibowli	Complete ×3 ₹45,000	3,980	₹610	1.4%	Why this score, translate (Telugu)	Under
Biryani House Jubilee Hills	Complete ₹15,000	1,520	₹286	1.9%	Camera nudge, read a document	Under
Cafe Nilgiri Gachibowli	Essential ₹6,000	1,060	₹190	3.2%	Camera nudge	Under
Green Leaf Tiffins Jubilee Hills	Essential ₹6,000	880	₹155	2.6%	Why this score, 4 times a day	Under

Dum Pukht Express Jubilee Hills · no plan	One-off deep clean	210	₹48	0.6%	Read a document	Under
Mehfil Dhaba Jubilee Hills · trial, no job yet	Trial	640	₹118	—	Camera nudge, translate (Urdu)	Costs ECCS, pays nothing yet
All 21 outlets, and ECCS's own use		**17,245**	**₹4,120**	2.6%	ECCS's own: digest, write-ups, ₹697	

A trial outlet with no paid job is where the cap matters most: it can use the helpers but never more than ₹21 a day. "Of what they pay" is AI cost divided by the outlet's invoices this month, before GST.

Every number here comes from the request log the server writes for each AI call: which helper, which screen, which outlet, which person, tokens in and out, and the cost Anthropic charged. Nothing is typed in.
